► Tele-Messenger Ultra Re-Certified Auto Dialer Systems represent the most economical voice broadcast dialer available today, and arrive fully configured to meet your specific voice broadcast needs; designed for easy setup and operation for any application. Everything required for dialing is included (just add a standard PC monitor and phone service... VoIP services are supported!), and you'll be dialing within 15 - 20 minutes of setup! Tele-Messenger Systems specializes in Auto Dialers to develop pre-qualified prospects for any business, and we maintain the most complete library of voice scripts which are delivering results for our customers every day. Each script is ready to be customized and professionally recorded with our voice talents.

► Tele-Messenger Systems uses specially refurbished Dell computers and state of the art Intel/Dialogic voice cards to ensure the most stable and reliable Dialer System. We install our in-house designed Tele-Messenger Dialer software, custom configured to your needs so you're ready to plug in your phone lines and start dialing right out of the box (custom setup at no additional cost... a \$495 value!). Each system is then put through a thorough series of real-time dialing tests, and fully backed by our Toll-Free customer support service.

► 4 Line Tele-Messenger Ultra Re-Certified Dialers now start at \$995 plus \$59.00 Shipping/Handling via FedEx Ground service to the Continental United States... systems are available up to 24 Lines.

**State of the Art Automated Voice Broadcast Dialers!**
