State of the Art Automated Voice Broadcast Dialers!

Tele-Messenger

Tele-Messenger Ultra Master Control Center

Providing Ultimate Setup &
Operational System Control

Phone Number Call Lists are easily Imported with the List Import Wizard

Voice Scripts are Created with the Script Template Wizard System

The Recording Studio is used to Create and Edit Voice Files for a Dialing Campaign

The Scheduler manages Phone Call Lists, Script Assignment and Dates, Times and Lines to Use

Allows for Call Progress Monitoring for each Active Phone Line in Real Time

Provides Reports of the Outcome of each Phone Call Dialed; easily Export Data

► Tele-Messenger Ultra provides an easy to use Graphical Interface which allows the User to access all of the critical Nerve Centers of the System from the Master Control Center window. There are six Control Buttons which guide you through the critical Setup and Operational steps.

► Tele-Messenger Ultra uses a sophisticated software algorithm to recognize the unique tones produced by various devices such as pagers, answering machines, modems, fax machines and out-of-order numbers at the other end of the line. Additionally, the Dialer can be set to deliver a different message to a live response or an answering machine. The State of the Art Dialer Engine incorporates Dialogic's "Perfect Voice" technology for instant detection and playback of your outbound message. Experience the exclusive Power Feature set of Tele-Messenger Ultra... the most powerful Voice Broadcast System available... at any price!

State of the Art Automated Voice Broadcast Dialers!

Includes standard modular phone plugs ready to connect to telephone jacks

► Tele-Messenger Ultra Re-Certified Auto Dialer Systems represent the most economical voice broadcast dialer available today, and arrive fully configured to meet your specific voice broadcast needs; designed for easy setup and operation for any application. Everything required for dialing is included (just add a standard PC monitor and phone service... VoIP services are supported!), and you'll be dialing within 15 - 20 minutes of setup! Tele-Messenger Systems specializes in Auto Dialers to develop pre-qualified prospects for any business, and we maintain the most complete library of voice scripts which are delivering results for our customers every day. Each script is ready to be customized and professionally recorded with our voice talents.

► Tele-Messenger Systems uses specially refurbished Dell computers and state of the art Intel/Dialogic voice cards to ensure the most stable and reliable Dialer System. We install our in-house designed Tele-Messenger Dialer software, custom configured to your needs so you're ready to plug in your phone lines and start dialing right out of the box (custom setup at no additional cost... a \$495 value!). Each system is then put through a thorough series of real-time dialing tests, and fully backed by our Toll-Free customer support service.

► 4 Line Tele-Messenger Ultra Re-Certified Dialers now start at \$995 plus \$59.00 Shipping/Handling via FedEx Ground service to the Continental United States... systems are available up to 24 Lines.
